SILO BEARING ARRANGEMENT

### WORKING SPACE REQUIREMENTS

### NOTES

- 1 Silos will only be placed on sites with suitable foundations, and at locations that meet the above working space criteria. Design and construction of any foundations is the responsibility of the customer.
- 2 A flat and level top surface of any foundation must be provided to ensure even bearing of silo feet.
- 3 No blocking or raising of the silo must not be carried out unless agreed in writing with CPI Euromix.
- 4 Silos must not be placed in areas accessible to the general public and delivery can only be made from areas controlled by the customer.
